10:11 Mentorship Program Community Meeting

by 10:11

This program unites high school students with mentors who support them and share their experiences. So, during the meeting in the House, mentors learned more about updates to the educational program of the project and got to know other community members.

The exchange of experiences to become better mentors was happening!

Management of Youth Centers and Spaces

*by the Ministry of Youth and
Sports, NGO "YouthUp", UNICEF*

During the educational program, 40 representatives of youth centers gained knowledge and skills in project management, time management, youth center administration, and complex problem-solving per the modules of the training topic. They learned how to discover the needs of a community and define the target audience.

Creative Communications Academy

*by linza agency and Ukrainian-
Danish Youth House*

An educational initiative for young professionals who want to work on communications for civic initiatives. 20 participants gained theoretical knowledge and also applied these insights through work on real cases for Ukrainian NGOs. Several weeks of diving into creative communications and strategic thinking.

Debate club "Apologetica"

by "Apologetica"

The debate club conducted two tournaments in the House. "Apologetica" is an initiative where active Ukrainian youth develop, enhance their knowledge, and hone their skills. The youth has become a part of captivating discussions, at the center of which were the hottest debates and political topics. Also, discussions on themes that genuinely concern our society.

"Peculiarities of creating a film in the screen-life format"

by Kyiv International Film Festival Molodist, AMO Pictures

During the Film Festival, the AMO Pictures team, creators of the film "Stay Online," organized a workshop and gathered in the Youth House with young professionals in the film industry. Participants were introduced to the screen-life cinema format, discussed its main differences from traditional cinema, and demonstrated how the world is created within a laptop.

"Helping to see in the dark"

by *DOCU/CLUB*

Docudays UA film clubs organized a screening of the documentary "Giovanni and the Water Ballet" with audio transcription. Everyone could watch the film wearing masks. Following the screening, there was a discussion on ways to make information accessible to people with visual impairments, which is critically important now so that everyone has access to data, such as power outage schedules.
